Jordan and P. In his view, activism comprises a new ethics of living for the 21st century. Now imagination plays as equally important a part as rational analysis in both the process and product of such opposition.

Second, everyday moments of determinative affordances are malleable and dur. At the same time, Occupy participants were of diverse age, race, educational, and class backgrounds. Others argue that these concerns were encompassed by past anarchist theory and that the changes in terminology merely signal a shift in emphasis or re-contextualising core anarchist principles in new circumstances.

Anarchism was understood to involve each challenge to structures of authority. In Arizona, a group of people protested the building of the Glen Canyon Dam. AFP,
