Smartcuts - by Shane Snow Date read: The story of three American travelers adrift in the cities and deserts of North Africa after World War II, it etches the limits of human reason and intelligence—perhaps even the limits of human life—when they touch the unfathomable emptiness and impassive cruelty of the desert.

Published in and so probably written a couple years before it's a little dated. This is the section of US law that shelters internet intermediaries from liability for the content their users post. He felt that he might have lost touch with the country, with its speech, the smell of its grass and trees, the pulse of its people.

Stinging counter-intuitive insights that hit very close to home for me. Such advice on hiring, but insanely repetitive.
